| onderwerp      | Artikel 40 vragen OP<br>over Plaatsing van<br>lantarenpalen die voor<br>5G geschikt<br>zijn/stralingsrisico's |

Geachte heer/mevrouw,

Op 8 juni 2021 zijn door de OP-fractie artikel 40 vragen gesteld over plaatsing van lantarenpalen die voor 5G geschikt zijn/stralingsrisico's. In deze brief beantwoorden wij de gestelde vragen. De OP-fractie verzoekt om de volgende informatie:

1. *Een lijst met de lantaarnpalen die in onze gemeente staan (een openbare verlichtingslijst);*

De lijst van de lichtmasten binnen de gemeente is toegevoegd als bijlage (01-Areaal openbare verlichting).

2. *Beleidsnota's omtrent openbare verlichting;*

De belangrijkste kaders zijn:

- Nederlandse Praktijkrichtlijn (NPR) 13201
- Uitvoeringsplan IBOR 2015-2020 (met doorloop naar 2024)
- Civiel Technisch Beheerplan 2018-2021

3. *Aanbestedingen of aankopen aan/van bedrijven omtrent het plaatsen van armaturen;*

De gemeente Papendrecht is aangesloten met vijf andere gemeenten in de Alblasserwaard en Vijfheerenlanden met een Gemeenschappelijke Regeling. Binnen deze GR regeling en het onderhoudsbestek worden de armaturen binnen de gemeente aangekocht en geplaatst conform de standaardmaterialenlijst die we vanuit de gemeente hanteren.

Voor nadere specificatie, zie:

- Bijlage 02: lijst met standaard armaturen (incl. leveranciers) en masten die wij toepassen in de openbare ruimte.

Als het (ook) om aanbestedingsinformatie gaat vragen wij de fractie van OP om verduidelijking van de documenten die zij willen ontvangen.

4. *Aanbestedingen of aankopen van LED verlichting / lantaarnpalen, alle onderdelen dienaangaande;*

Zie vraag 3.

5. *Beleidsnota's omtrent smartcities / het smart maken van de publieke ruimte;*

In het Civiel Technisch Beheerplan 2018-2021

([https://www.papendrecht.nl/Inwoners/Overzicht\\_Inwoners/Algemene\\_informatie\\_regeIs/Wegen\\_in\\_Papendrecht/Civieltechnisch\\_Beheerplan\\_2018\\_2021:gExeoGcQSXOiBklUBh5c0Q](https://www.papendrecht.nl/Inwoners/Overzicht_Inwoners/Algemene_informatie_regeIs/Wegen_in_Papendrecht/Civieltechnisch_Beheerplan_2018_2021:gExeoGcQSXOiBklUBh5c0Q)) wordt inzicht gegeven hoe smartcity voor de openbare verlichting in Papendrecht wordt ingevuld. Bij intelligente verlichting gaat het niet alleen om licht, maar ook de sensoren waarbij informatie wordt gegeven. Voorbeelden zijn het (dynamisch) dimmen van verlichting of de bewegingssensoren zoals de verlichting op de Kluifrotonde.

6. *Alle interne e-mails omtrent het aanleggen van digitale en/of draadloze infrastructures voor communicatie / the internet of Things;*

Dit is niet of nauwelijks te achterhalen, mede gelet op de zeer algemene vraagstelling.

7. *Beleidsnotities aangaande smartmeters;*

Zie beantwoording vraag 5.

8. *Technische eisen aan lantaarnpalen en onderdelen;*

Zie vraag 3.

9. *Instructies aan de gemeente / burgemeester vanuit de rijksoverheid / veiligheidsregio aangaande crowd control / civil monitoring.*

Dergelijke instructies aan gemeente/burgemeester zijn niet aanwezig.

#### **Uitrol 5G**

In de brief met artikel 40 vragen over de plaatsing van lantaarnpalen geeft de heer Lammers aan dat hij zich niet gehoord voelt door het college over de uitrol van 5G. Het spijt ons dat te vernemen. De gemeente heeft slechts een beperkte rol bij de uitrol van 5G en volgt het beleid van het ministerie hierin. Wij nemen de vragen serieus en hebben (artikel 40)vragen hierover beantwoord op 7 april 2020, 19 januari 2021 en 18 mei 2021.

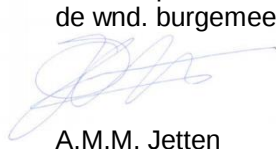

Verder geeft de heer Lammers aan het op prijs te stellen op enig moment een integrale commissie ruimte aan deze (5G)problematiek te wijden. Hiervoor verwijzen wij hem naar de agendacommissie van uw raad, dit is geen zaak van het college.

Wij vertrouwen erop dat wij u hiermee voldoende hebben geïnformeerd.

Hoogachtend,  
Burgemeester en wethouders van Papendrecht,  
de secretaris, de wnd. burgemeester,

J.M. Ansems

A.M.M. Jetten
